

Important Information

The dashboards are categorised into 4 classes, namely:

- Regulatory: Which focus on compliance
- Operational: Which focus on monitoring and analysis
- Strategic: Which focus on management
- Drought Status

Several dashboards can be found in the first 3 categories. They are as follows:

Regulatory	Operational	Strategic
Waster Water Quality	Surface Water Storage	Groundwater Reserve
Waste Water Treatment Authorization	Groundwater Availability Status	Surface Water Reserve
Drinking Water Quality	Groundwater Development Potential	Access to Infrastructure Delivered
Resource Water Quality Objectives	River Flows	Reliable Water Supply
Health risks related to untreated Water from Rivers and Dams	Non-Revenue Water	Surface Water Monitoring Network
Eutrophication Hot-Spots	Government Water Schemes	Groundwater Monitoring Network
Existing Lawful Water Use	Water Reservoir Supply Risk	Water Quality Monitoring Network
General Authorizations	DWS Human Capital	
Level of Compliance per Case		
Classification of Offences by Activity Type		
Classification of Offences per Sector		
Status of Legal Processes Associated with Cases		
Municipal Strategic Self Assessment		
Water board Tariffs		
Municipal Water Tariffs		
Raw Water Tariffs		
Dam Safety Regulation
