

Water Tariffs - Raw Water

The Water Tariffs - Raw Water dashboard indicates Raw Water Tariffs.

- **What does this dashboard relate to?**

The Raw Water Pricing dashboard depicts the raw water prices charged nationally. This is inline with the prescripts of the raw water pricing strategy. The raw water charges are made to be cost-reflective in order to avoid over-charging or under-charging of raw water.

- **Person(s) who championed the dashboard**

- Ms Sizani Moshidi
Economic and Social Regulation

- **Enquiries:**

- For all dashboard enquiries click [HERE](#) to go to the Contact Us page.

- **What type/s of questions does the information product aim to answer:**

The information product aims to answer the whole question of whether Catchment Management Agencies are determining their charges in a cost-reflective way or not. It also seeks to ascertain whether the prices charged by CMAs to Water Boards are affordable; equitable and fair. The other question that will be answered in the process will be the question of sustainability of the CMAs.

- **Data / Information discussion:**

- Data used to generate the information
 - What data is used?

The data used is the Raw Water Tariffs data which is supplied by the business unit and it is being displayed on the NIWIS dashboard. The quantity of the raw water, as well as demand fore-casting, needs to be taken into consideration.

- How is extracted and from where?

The business unit gets data from their system and the data is populated into a spreadsheet, and then saved onto DWS local network drive (N-drive). From the N-drive it is imported into NIWIS.

- How often is it extracted?

The data will be extracted on an annual basis based on the 12 months period.

- Business processes related to the data

N/A

- The algorithms / equations used to convert data into information

No calculations are made within NIWIS. The data is display as it has been provided by the relevant DWS business unit.

- Key assumptions

It will be assumed that all users have been assigned user rights/ permissions as per their respective levels/ requirements and have access to the system.
